OCR Text Detection Tool

Privacy is very important for us. To be transparent we will explain how OCR Text Detection Tool process your data. If you don't agree with our Privacy Policy and other terms below, please do not use our application and contact us with your concerns to roxy.feedback@gmail.com.

Personal Data

We do not collect any data other than those that are subject to transformation. We use only data, that you provided. During the processing we are using Google API Services. We don't share your data to other services. Your uploaded files will not be given or sold to anyone. No one except you will ever have access to converted file, because all files are getting deleted right after each conversion, therefore we can assert, that we don't store any data. We don't look into your files and don't make any backups.

Security

We do a lot to make our application as secure as possible. All transfers are made by SSL encrypted channel. All requests to api pass validation. Please be aware that, although we endeavor provide reasonable security for information we process and maintain, no security system can prevent all potential security breaches. If you will have other additional questions about security, please contact us to support.

Note: Your files will be send through encrypted pipe to Google Api for processing. Files are deleting immediately right after conversion. By using this app you are agree that your files are send over the internet to conversion api. Check our Privacy Policy for more information.

This privacy policy is subject to change without notice and was last updated on 13 October 2018. If you have any questions feel free to contact us directly to the roxy.feedback@gmail.com
